During the 1972-73 school year, $4,790,097.77 was provided to 16 school districts, 1 accommodation school, and 5 counties for administrative and supervisory services for 20,030 students. Dear Mr. Artichoker:

This Annual Report for Johnson-O'Malley funds for Arizona reflects the amount of growth of Indian students in the public schools of Arizona.

These funds are vital to the operation of public schools with large Indian student populations.

There is a great interest in schools on and near Indian reservations and I am sure this report will be of value to you and the State Department of Education.

I would like to express my appreciation for your cooperation in making this program available to the students in these schools.

Sincerely,

W. P. Shofstall
Superintendent of Public Instruction

NARRATIVE

1972-73 ANNUAL REPORT ON INDIAN EDUCATION IN ARIZONA

Distribution of federal funds under the Johnson-O'Malley Act (P. L. 73-167) is made by the Division of Indian Education of the Arizona Department of Education. Funds are provided to eligible public schools and counties (with an impact of 3% or more eligible Indian children) of Arizona to help pay the cost of educating Indian children residing on tax-exempt reservation lands. Full per capita cost of education of out-of-district Indian children housed in federal dormitories is provided to the host school district. The basis of the contract between the Bureau of Indian Affairs and the Arizona State Board of Education is a State Plan developed by these agencies representing the Federal Government and the State of Arizona.

Under the State Plan, $4,790,097.77 was provided to 16 school districts, 1 accommodation school, 5 counties and for administrative and supervisory services during the school year 1972-73. Approximately 18,972 students were enrolled in regular participating schools, and 1,058 students were enrolled under the Peripheral Dormitory Program.
